Look, we are working hard on creating this tool for the community, but because of assholes like the 2 individuals below, development is much more complex and thus slower because we have to encrypt the protocol and think of every contingency for losers who have nothing better to do than try to ruin other peoples fun. THIS IS NOT A HACKING COMPETITION. Stop planning on hacking RenGuard FFS...You know there are actual competitions out there, and high paying jobs for people with blackhat skills...why don't you try for those instead of pissing in everyones cheerios?

Those #@\$*#&#\$@ make me #(\$*&#@\$#@\$ sick #@\$*#&#\$@#\$\$ go get a life you #@\$(*#&#\$@#\$ loser wannabe hackers.

I now understand why this has to take time. All hail the RenGuard team!

That Uni guy has been in FoD's channel a few times. If he comes back, we'll make sure he is banned. As for those freeks, I hope RenGuard will get rid of all of them.
