The first 20 rankers are cheaters not including me though. Well the influx in cheaters to the ladder games have sky rocketed.

Cool, specially when the only server I'm not banned from is the 24 player BlackCell server... I used to like the FoD server but I just got banned cause "they don't like me" so... ya

This is very good news I didn't believe it when I heard somebody mention it over at Ammo, but I checked here anyway and was pleasantly surprised I didn't expect the ladder to ever come back to be honest. Wow!

I don't expect anyone to know the answer, are all my ladder points that I got in the time the ladder was down all tallied up? Or was that hard "work" gone to hell?

I am number 10 in the ranks with all the other n00b cheaters but i dont cheat. i found that by using mamoth tanks only the cheaters will lag out so im totaly fine due to the fact most players cheat heh..

i played with every one in this list of cheaters they are relentless. hope ren guard comes soon untill then i will be buying mamoth tanks and instrucing my team to do too.
