xC4pRoXCan I get unbanned from your sniping server? I was playing today and when I went to buy a sakura, I pressed 7+6 accidentally and bought a stank...

This is not the place to request being unbanned.

If you were auto-kicked for buying a vechile your not actually banned and you should be able to re-join.

If you were Banned thats a diffrent story...

Visit the forums and read the sticky before posting.

Just ignore the email errors... I think I need to just install SMTP on that box. The operation still works, you just get an error.
