Well I've never had dream about it but I wish really badly my g/f and I could be together. If you've never been in this situation b4 you probably dont care, I know I wouldn't. But I've just enetered college and she's still in 10th grade so its just not the time to get really involved cus we've both got so much more we have to do before becoming serious. LOL this is probably nothing like that you're saying havoc, but I relate to you i think

Serious answer to what? There was no question. It was merely a statement made by you, with no request for any specific feedback.

I wish I was attacked by a giant Pie. I'll go and cover my whole body in Vaseline and.....

Wait, we're talking about a real Pie. In that case, I like Cherry Pie.
