I just installed windows 2000 service pack 4 on my other comp and now when ever I start-up I get this message then it restarts when done and I can never get to my desktop:

** Stop: 0x00000050 (0xEB8000, 0x00000001, 0x8046214A, 0x00000000)

** Address 8046214A,base at 80400000,DataStamp 3ee6c002-ntoskrnl.exe

Physical memory dumping
Physical memory to disk: (percent done)

Ah yes, the lovely cousin of the win98 screen of DEATH. Try running in safe mode. (This only happen to me once, I just restarted and it never happened again.)
