Is Renquard gonna block my w3d gun skins.....and dds files like normal skins?? or is it just for cheater files?? I love my all my skins cause they make the game more REALISTIC and i don't wanna degrade that! And theyre not big gun skins....just cool looking guns!

I have answered this question 495 times and it's on the website.

ONLY FILES THAT GIVE YOU AN UNFAIR ADVANTAGE WILL BE BLOCKED. NORMAL GUN MODS AND SKINS ARE FINE SO LONG AS THEY DON'T CHANGE ANYTHING THAT MAKES OTHER PEOPLE EASIER TO HIT, SEE, OR KILL.

OK, sorry about that, but seriously... there aren't THAT many threads in this forum that you can't just peruse them real quick. I have answered this SO many times.

Can you make this configurable by the server admin? Sometimes it would be nice to run a "pure" server.

Yes, the Server-Side client will contain several options to control how much you want to restrict skins and mods.

Nah, they are no where near killing it if our servers are still anything to go by. Although my ban databse is taking a hammering.

So wait a sec, you're planning on having renguard go through and somehow determine whether my models/skins give me an unfair advantage? Heh, good luck with that.

:rolleyes:

Are you serious? Think about how this will be accomplished... it's not hard.
