Hi Everyone,

Just got some quick questions. How come when I am in a game and [tab] a couple times to see my overall rank, there isn't one but everyone else has one. I've played like 30 games. Also, before I sign-on to Westwood Games it shows that I'm ranked in the 4,xxx range.

Ladder? I'm guessing that is what determines whether or not you "get better or worse" ranking? Is there anything new that will decide how to improve your rank.

The way it is supposed to work is if you are on the winning team at the end of a game, you get points, and if you are on the losing team you lose points. The person with the most points is at the top of the ladder, and the person with the least is at the bottom.

Where do I go to find out my rank,loses, and points like some people have in their signature?

Put this code in your sig

[img]http://www.n00bstories.com/stats/renegade_stats.php?player= your WOL name &team= side you want on pic [/img]

^ex: gdi, nod

ex: mine is

[img]http://www.n00bstories.com/stats/renegade_stats.php?player=Infinint&team=gdi[/img]

but it probably wont matter cuz the ladder is down and will mostlikely never come back, so youll just have "unranked".

Oh come on guys don't be so mean to him! He is not the kind of new guy who comes in flaunting his dick. He is being very polite.

And yes the ranking system doesn't work because EA most likely stopped supporting so don't worry if you have no rank. Rank is not really important at all although some think it is

Oh and welcome. Try to ignore all the assholes, There are many, And ignore icesword he is anti

renegade and has already been banned once for being a racist.

Thank you everyone for your help. I've been playing Renegade online for awhile now, just never took the time to find out what was going on aside from shooting and repairing people. I hope the ladder thing comes back up, so I can compare myself to others.
