What's the name of the artist/track that's played in the kung-fu simulation from the first matrix movie?

It goes "I wanna take you on a rollercoaster..." then cuts into the heavy beats.

It IS in fact "Leave U Far Behind" by Lunatic Calm, although the version from the film is a remix, and the version on the soundtrack is the original album version. You can find a version from the Mortal Kombat - Annihilation soundtrack that is closer to the version used in the film.
