Yea, this is something that was going on in the early parts of Renegade, way early.

WolfServers started off in the early days on Renegade, and was a passworded server for the Renegade Forum community. They closed it down because of the amount of bandwidth Renegade uses.

From then on they went to other games, and I left. Went to hell I'd say too, especially since the admins developed 'God' syndrome.

Yea, they are totally screwed up right now. Check their new site, if you dare.

<http://www.wolfgaming.net>

(The worst)
