It's OK but I don't think we can be expecting much support from that site anymore...

Just something about the closed content suggest's that to me.

Well, WS has undergone quite a shakeup lately. I am afraid that the new site will just be a near extension of EA. I wonder if future C&C games by EA will be posted on the WS site. I also wonder if this is the LAST update <http://www.westwood.com> will ever undergo? Sad really.
