I recently installed Milkshape 3D, I relalized it didn't work. So then I grab Gmax and when I click on the icon it brings me to the Milkshape 3D setup.

This also screwed up my desktop icons:

Heres what happens when I click the setup icon. They unzip works fine, then when its unzipped it goes to Milkshape 3D setup? What the hell?

(I also got latest patch)

Please help me solve this problem.
