Ok i have seriously gotten sick of modeling stuff for mods that never came out. so, i am releasing another model pack. some of u may wonder why this is the second one and not the first one. well it all happend along time ago i released a Weapon pack with about a dozen weapon models. i dont know anyone who still has it. well this model pack contains 14 models i made and 1 model givin to me by Jarro (Hover Oblisk Tank).

This includes some of the Halo models i have made, and so i just want u all to c if u can use it in any map or mod but dont forget to gimme credit.

Haven't taken a look yet, but I downloaded it, and will keep this as long as my computer doesn't die. . . May I have permission to put it on my website?
