We had a cheater tonight on The Pits server, then he actually takes the effort to page us in IRC telling us that we kick all "The Pros."

Here's where he joined.. he's been in the game 38 seconds.

[01:47:39] 23 sebontain 0 GDI 142 67.161.100.152;4035 86 000.00.38

[01:47:39] Time : 0.03.10

[01:47:39] GDI : 14/32 players 17479 points
[01:47:39] NOD : 15/32 players 16480 points

Now's where the fun begins. We knew there was a cheater, Nod was bringing flame tank after flame tank around the corner, and they were all dying instantly. It took me a minute or two to recognize there was a problem and go identify the person. The logs prove that I was correct.

Id	Name	Score	Side	Ping	Address	Kbits/s	Time

Umm . . . Msgtpain, why is it that whenever I join the pitts, I am automatically kicked from the game? It has been going on since summer I think.

I don't even know what a "beacon exploit" is, but any ways I just tried joining today December 13th, 2003 at 8:30 A.M. I join, and I see the PT for half of a second then the message that says you have been kicked from the server comes up, then if I try and rejoin it says that I have been banned from the channel.
