I think i might clicked on something by mistake and now the tool bar on the right is gone in RenX, can any one help?

heres a pic:

Press the number 3 on the keyboard. It will restore the sidebar tool menu.

At bottom right, there is a button that looks like a box with an arrow leading into another box. Click that with the large viewport selected and it will enlarge the viewport to remove the others. Clicking it again will bring them back.
