Mine has been frozen at 1080 for like two weeks now. Not sure what's up with the ladder. Everything else is broken so I don't see why the ladder can't be broken either. :rolleyes:

Nope mine aint moved either, pittty I wanted to know if I was playing any good.

I wish EA would get over and done with, ask a fansite to host wol, use on last patch to swap any new comers over...

Then at least it would have somebody who is willing to put some effort in.

Of course if a fan site was to take control it would be just right to donate

Either way it doesn't matter, its only a rank...

I think the whole stats thing is just random...

EA is too lazy to actually make it work...

Because it stops for a week, or fluctuates all the time for me, but never actually seems to reflect how I do.
