ello ppls
2day i tried 2 kick a guy called firewar via brenbot, first a mod in game, then me on mirc,but got the error name not on player list :S
he was there alright
even the id kick didn't work :S kicked somebody else with an diff. id :S
bug??(like b*e ?)
!ban !kickban !qkick all the same error
really annoying

Well, this one is simple.
The !kick DOES in fact work because it says player not found. You MUST have spelled his name wrong > could not be otherwise. Check your spelling.

Always try subsets of the name, especially a part you are certain of what it is, like "!kick war" would have worked in this case. If all else fails in irc you can type !ids and see everyones playerid and then do like !kick 5.
