Is there any way i can change the BRenBot colors being used @ IRC
The LightBlue and Yellow text when someone joins/leaves and the GDI teamchat color is really
pissing me off.

Darkblue join/leave and an Orange/Brown color for teamchat would be ALOT better.

I just use a different skin to get round this one!
I use: NNSCRIPT, Temptation-Blue skin - works nicely with everything!

No matter what colors we use people complain, so I decided to mimic the colors of the FDS
console. I will consider making the colors customizable via the config file in the next version.

It wasnt really an offense its just that the yellow and lightblue hurt my beauty blue eyes

Nevermind this topic, close it if you want i solved it

Just set this file to Fill background @ IRC (Press ALT+ -) :
