Yay! I started a sympathy thread!

Anyway, I was gonna send someone I know some flowers. But I didn't want to freak her out and make it seem that I'm forcing her in a relationship, since some other guy did that to her. I'll just have some flowers (are 2 dozen enough?) sent on some normal day "just because," and I'll have them sent anonymously.

Come to think of it, that other guy still bugs her. He calls her like three times a day. He uses all sorts of vulgar language and such, what a dope. :rolleyes:

I hope you all find love and have a great Valentine's Day. :inlove:

Here's what to do to make vulgarman go away:

[WARNING: DO NOT ACTUALLY DO THIS.]

- 1) Get those flowers sent to your house so you can send them out.
- 2) Urinate and defecate on flowers.
- 3) Put flowers in a box and mail them to vulgarmen with Ms. Anonymous's address on it.
- 4) Let the fireworks begin.

And if you want to get in with any womens, word on the street is that chicks really dig airplanes.

As you can tell, I haven't made it out of middle school yet.

Thought that this Valentine's Day was gonna be somewhat cool...ya know, spend some money, spend time with my girlfriend. All of that came to a halt last monday, she broke up wit me for no reason what so ever. Still havn't gotten a reason even though I sent a letter asking why and etc... Although it will be cool tomorrow. Me and my friend are going to go pick up chicks on Valentine's. We're both single so we're gonna see if we can find anybody. Lonliness SUCKS.

she NEVER talked, she might as well have been a mime. I had always asked if there was every anything wrong, because I sometimes thought there was...so I asked. But I stopped asking cause nothing seemed wrong at all, but all of a sudden I get a call and she breaks up with me. So apparently it wasn't worth saving to her cause she never brought up anything EVER. Her reason, this is pretty much a direct quote, "I feel different than I had at the beginning."

We went out for nearly 3 months and we never fought or anything and everything seemed pretty much perfect. Oh well...she never was one to take charge and do anything. She would never kiss me, never grab my hand, never put her arm around me, rarely ever called me.

Weird cosmic thingy or something: last monday morning I finally got a picture of my girlfriend and me...after school...call...dumped...I thought that was really weird. A coincidence, but still thought provoking.

Update: I got a letter...wouldn't really call it much of a letter. 8 sentences...wow...i feel special. At 14pt font and at triple spaced...the letter comes out to be about a page. 139 words (give or take a few on account of accuracy of friend who typed it), 729 characters (spaces included, same as words)

My solution to all my problems was to dismiss all holidays as an other normal day. But there are bad things about it like not knowing it was Christmas till i got up at 12 in the afternoon to find presents all opened but mine... I did not know today was valentines day till yesterday.

AJ...yes...she is my ex...but no need to call her stupid. She just is a blonde who doesn't know what the hell she wants. She even admitted that she didn't really have any standards. That kind of put me at a loss, but I got over it and moved on.

Damn she was hott though.

cowmisfitDanSolo will cut down to 5hrs renegade per day for the right woman

thats a lot of renegade

thats a lot of cutback

I spent my Valentines Day at work, all day, 10 freaking hours. The owner(my uncle) had gone out to his son's wrestling tournament, so I was left in charge. That plus I had to answering the phone and keep the salad bar filled. And my ex-girlfriend's mom actually had the nerve to show up where I work! I would explain why I can't stand her but that would take too much typing. I was so pissed that if she had said even one word to me I would have cussed her out in front of all the customers. Fortunately, she was smart enough to avoid eye contact with me.

The highlight of the night had to have been this old woman who called. She wanted to make a reservation for freaken September. She asked if I was related to the owner and I said yes. Then she made one or two compliments about our family. After about 10 minutes of her babbling on and on she asked me who the owner of the resturant was. Despite being completely dumbfounded by the question I politely answered her. Then responded by saying, "I see.", as if she had never heard the name before.
