This looks like a program that lists each player, score and k/d in a certain server (probably not running anything fancy). Intervesting indeed.

Very nice, but does RenEvo create utilities for Renegade anymore, or will it all be under Blackhand Studios?

I already noticed that BR.NET is a product by Blackhand studios and no longer RenEvo... All confusing!

RenEvo is all about Evolving your game, while Blackhand Studios is about Supporting it, hope that helps you understand a bit.

RenEvo = Mods & Tools

Blackhand = Support & Moderation

Kinda, but REOL comes under the 'support' kinda thing and not Mods & Tools. I think I'll just leave this to see what happens with the new studio thing.

If you all noticed Renevo has collapsed the box just says not ranked. so blackhand studios is the only place we can get ranks and stuff right?

Actually, believe this, EA actually reset the ranks. Is that amazing or what. Talk about irony!
