If you don't know how to do that you may as well not even try because that is the easiest step in the tutorial.

---

Then all you do is goto

C:\Program Files\RenegadePublicTools\LevelEdit\

and then run leveledit.exe

---

oh ok, thats not how its done, on the left hand side there are some tabs, click heightfield,

Create new,

Hit ok, and you ground is ready.

use the blue button at the top of the middle bar to move the ground up and down

---
