I hate long posts dont you?

Im too lazy i guess, i wanna red them but i dont payattention,
its weird.

I can't read long books unless I am very interested in it to begin with. I can almost never read a book that I no nothing about because I will constantly read the first few chapters and space out.

However, if it's something I like and know is good, I easily go through it.

(Don't think that really relates to your problem though)
