Good patch, grateful to see Fjord in the rotation. But I'm a bit surprised at how weak Volkov has become, or how strong the rifle infantry are. The main problem I have is that Volkov doesn't have a good anti-infantry weapon, which is why he gets pwned so quickly.

Other than that, good job.

Well if Voklov is good against vehicles, and infantry, and has alot of armor, whats his weakness?

Which is why you get someone to back you up who has a good anti-infantry weapon.

Its teamwork remember, not solo play!

For days I couldn't figure out why I couldn't find any games lol. Guess I should check in more often.
