Why is this in the mod forum?

need your system specs...

Cpo64Why is this in the mod forum?

need your system specs...

who cares if its in the mod forums anyways:

Windows XP home edition  
352 MB of ram  
AMD Duron Prcessor  
747 mhz  
80 GB Hard Drive

Is that enough?

Its easier to answer/find a question when it is under the correct forum...

Are you running it in compatibilty mode? do you have the most recent patch for Red Alert?
