So is it released? Or is it some private beta server for certain people to test out?

It's -currently- a private beta

I'm guessing it's still a private beta server because Crimson/Blazer/Mac/etc. haven't made an announcement.

The website most likely won't be updated the second the program is released.

ya... so in the meantime, can you take rengaard off and run your single player M09.mix server?

\*Assuming your the one running the server, because you were running a 127 m09.mix server earlier)

I'm not the one running the Renguard 126 player server. However, after a few bugfixes I will be putting all the MOX maps in rotation.

well they just be CTF or have you figured out a way to do AOW?  
Could it be possibel to do A CO-Op mode?

Some of the maps may be suitable for AOW (which I can do) or, but many would be more suitable for CTF. CO-OP wouldnt be possible without some custom scripting and wouldnt run smooth since poke scripts dont work in MP

The 127 player server is mine. It's locked because I don't want people playing on it. It's an advertisement so people who don't know about RenGuard will check it out.

If rengaurd works, everyone will download it, I doubt you will have to advertise, but the key is that if it will work. People always find ways around things which is the big problem :/

We have taken on a new security consultant who is brilliant.

I can't host 127 players. The game is password protected. The 127 players, among other settings, just attempts to get my "game" listed at the top when you sort several different ways. Gotta get that word out.

I think you can make your server title anything you'd like, so hopefully it's not breaking a law.

lol.. not to worry, it's not breaking any laws. However, since the advertisement has commenced, I thought it would be a cheap laugh for those who remember when the 'debate' on WOL advertisements first began.

heh sounds like the words of a company that sends mass emails.  
I think its spam because you can't join the server, you can't download renguard, and it is always on top of the List.

Atleast if renguard is out it would make sense, but right now its spam.

...

I sat here for about three minutes, fully intending to post a reply to that stupidity above, but I can't seem to find the words to express how stupid it is.

Perhaps the medium of song will help.

\*ahem\*

WHAT THE FUCK  
WHAT THE FUCK

HOW DID YOU JUST SAY THAT  
HOW DID YOU JUST SAY THAT

WHAT THE FUCK  
WHAT THE FUCK

YOU SPEND MORE TIME BASHING ANYONE HERE  
YOU SPEND MORE TIME BASHING ANYONE HERE

WHAT THE FUCK  
WHAT THE FUCK

\*guitar solo\*

\*release massive floating pig with "WHAT THE FUCK" on the side\*

WHAT THE FUCK DID YOU THINK I'D SAY  
BE A RETARDED ASSCLOWN OR DON'T BE A RETARDED ASSCLOWN

THE CHOICE IS YOURS  
THE CHOICE IS YOURS

GET ALL HUFFY OVER FORUM REPLIES AND TROLL LIKE A SIX YEAR OLD

THE CHOICE IS YOURS  
THE CHOICE IS YOURS

WHAT THE FUCK DID YOU THINK WE'VE SAID  
WHAT THE FUCK DID YOU THINK WE'VE SAID

IT'S SAFE TO SAY NO ONE LIKES YOU HERE

WHY DON'T YOU JUST GO AWAY

GO AWAY  
GO AWAY

\*fade out with "WHAT THE FUCK" chanting in the background\*

Hmmmmmmmmmm

Its an FDS, its on WOL, you can join it with a pass, it uses a normal hostname, it has a game title. How is this violating ANYTHING? Its the same as hosting an EoE server with <http://www.eoeclan.com> as the game title.
