AprimeNow, let's get on with rumors!

I heard the controversy over the closing of Westwood caused him to resign because EA wants to

reopen it and continue the C&C series properly.

It's only a rumor...But I doubt that the guys at Petroglyph would like to work for EA once again after that...You'd probably only see the shit heads who made Red Alert 2, Yuri's Revenge and Generals (formerly known as EA Pacific). If Westwood comes back, it would certainly be diferent, probably some kind of New EALA.

I don't necessarily know if I'd want EA to open WS up again and continue the C&C Series. I love the C&C Series, but I don't know if the chances of having a flop are worth the risk.

Maybe this will stop EA's monopoly and it would be easier to open a gaming company.

They don't have a monopoly, why? Because they don't control 100% of the market. Microsoft on the other hand, is a different story.

We have laws in America that prevent large companies like EA from becoming a monopoly. EA is nothing but a large company.

Yeah, we have laws, but companies also have money, and people like money.

And judges = people.

Not that I'm suggesting that Microsoft got off from being disbanded because they were shown to have a monopoly, apealed, and then paid off another judge to let them go. Nothing like that at all.

But I don't think EA has a monopoly. There are a ton of other game companies out there, like Blizzard and Ubi Soft, which continually churn out good content.

I know Bullshit when I see it.

Westwood will NOT be back. Dead. Finito. Morte. Muerte. Disco.

See Petroglyph games for any hope of continuance of this series.

Well, it all makes sense...

Sara Lee makes mass-produced food that people eat up without wondering what goes into it...

EA makes mass-produced GAMES that people eat up without wondering what goes into them!

I don't know what all the fuss about Petroglyph is. Sure, former WW members joined it, but that doesn't mean that they are going to make another C&C game.

Move on...

<http://www.petroglyphgames.com/>

Read this, then tell me after you see who is running the company, where it is, and what experience they have in westwood games, and c&c specifically that they don't have a c&c future planned. Expect to see Klepacki doing thier music as well.

This is the company to watch folks. I would recommend everyone in Blackhand, and Renalert Development apply at this company with Rengaurd, and Renalert as referenced experience.

They are hiring, and are INDEPENDANTLY owned. No EA overlord to water down the games.

This is what Westwood Studios was before being sold out by Sperry and Company, and they will succeed for that very reason.

I doubt any of you know what I am even talking about.
