Announcing The End Comment!

Thursday, April 8, 2004, 06:43 | HeXetic

... the END TO RENEGADE CHEATING. (Thanks, Eric)

The day you've been waiting for is here. RenGuard, BlackHand Studios' anti-cheat software for C&C: Renegade, is available for public download.

We would also like to take this time to announce that we have added v00d00 to the team as a Security Consultant. He has a huge wealth of knowledge in securing applications and his input has been extremely valuable in closing holes in the program and finishing up the Win32 SSC where a former team member left off. Please welcome v00d00 to the team!

I'd like to quote Ezekiel 25:17 in honour of this moment, if you don't mind.

The path of the righteous Renegade Player is beset on all sides by the inequities of those with aimbots and the tyranny of bigheads. Blessed is he who, in the name of charity and good will, shepherds the weak through the valley of the darkness by making an anti-cheat program. For he is truly his brother's keeper and the finder of lost children. And I will strike down upon thee with great vengeance and furious anger those who attempt to poison and destroy my brothers by using Final Renegade. And you will know I am the LORD when I lay my banlist upon you.

Go get Renguard now! The power of compels you!
