Update: I uninstalled Renguard and Renegade, deleted the Renegade folder, reinstalled Renegade, updated to 1.037, and installed Renguard. Works correctly now.

Well, nm, worked.. once.. now it's at it again.

(sorry about triple post, just want to give this some attention)

here my message i get when i start the game with the renguard:

```
Connected to server.  
Welcome to RenGuard !  
To launch Renegade, please click 'Renegade'.  
Unauthorized file data\always.dbs has been found in your renegade directory  
Disconnected from RenGuard network
```

shit, i have reinstall renguard and renegade but it didn't work
help...

Did you upgrade Renegade to 1.037 version before you installed RenGuard?

```
im having same probs with always2.dat, i installed renegade fresh and updated it to 1.037,  
installed renguard and yea...  
RenGuardTrying to connect to server #1...Connected

my game is destructed, take the programm out of the world, it isn't funnny anymore, since three days i try everything wich is available to make it working, but nothing works.
opposite happen, my game iis totally destructed:

RenGuard is already loaded, unload it and try again

means that , that i have downloaded it?
it isn't active, i can realize that at the task-manager, but it say's so
there more problems than help with that

now it is working, but i'm kicked ever

i have no fun with this dam...
i want fun...

why i'm kicked?
renguard is:
Downloaded,
Installed,
Active,
but still kicked :twisted: ?
