Ive been banned form all my favorite channels  
rengaurd is messing me up and i have some questions

Ok 1st

i have uninstalled renegade soo all my skins and eveyrthing like that are all gone  
so i fixed that

it would say decting models(skins) blah blah blah thats fixed

i reinstalled renegade with 1.037 version

now i just uninstalled rengaurd wat version should i install?

rengaurd.com or mirror 1 or mirror 2

under the 1st set of 3 (RengaurdClient)

thxs for the help

Download the installer from any of the 3 mirrors, run the installer, and launch renegade. It should work correctly. If not post any error messages you have here.
