Who is he?

Why do you flame him?

What forum is he from?

Has he done anything for the community?

Is he good at renegade?

Just Curious...

Quote:Who is he?

A know-it-all fucktard

Quote:Why do you flame him?

Because he trolls everyone here and puts down various projects

Quote:What forum is he from?

Unrules??? whatever that is. Probably the name of his excuse of a server

Quote:Has he done anything for the community?

Probably not, made himself a target - yes

Quote:Is he good at renegade?

No since he is known for banning people or individuals because he was losing face in the forums.

OK, here's my little story. Alkaline was getting flamed pretty bad on RenStation when I "found" him... I guess they got sick of him or vice versa but somehow he ended up here.

Note that I LIKED HIM at the time. Also note that at this time I ran only two servers... n00bsvr01 which was on WOLSpy and crimson79 sniping. He JUMPED ON MY SHIT for no reason flaming the shit out of me for hating GSA and thinking GSA was a bunch of n00bs.

But the truth was, I never disliked GSA. The fact that I run a server on there kinda proves that. He went off the deep end on me with no justification... and I'm DAMN sure I'm not the only one. Now he's jumped onto Scrumfy's anti-Crimmy bandwagon because he finally found someone who liked him I guess.

Fortunately for us, now that he's hopped onto Black Cell's hind end, we are probably seeing the last of him. He doesn't seem to have the attention span to visit more than one forum.

We love to hate and hate to love certain people. When a moron flames everyone, especially the owner of the forums, we tend to get defensive.

He has replaced well there realyy hasn't been a fucktard of his caliber since Raveshaw and that was on the original forums.

An alkaline hater for a rank title nah that serves to give him legotimacy he doesn;t deserve. I for one will flame him at every opportunity.

Simply put, he is the ass end of all the bad opinions in the world.
