Now there is a clan that is covering all games I am a memer and would recomend it to any other person. The Mission Mercury Clan (<http://www.missionmercury.cjb.net>). This is the first clan that has actualy let me have acsess to all admin rights and the first clan that actualy uses there forum. They have 6 dedicated CS servers and 2 dedicated Renegade servers (third largest clan or Renegade). But the best part i that if you have CS or Ren it pays. They have split winings from tournaments to all members that played in it. Most moany goes to paying for the dedicated servers though but I got \$73 last tornament.

I recomend anyone to join I love it. Note- They dont use Clanbase anymore. To join you have to go to there forums (<http://www.missionmercuryforum.cjb.net>).

Hope to see you at some point

Cya

But they usually do go hand in hand. You're not going to have a large clan if you're not well known and popular. You are popular by being good.
