Yeah....I had to delete Renguard because it wouldn't allow me to enter a game...So after I deleted it and tried to join a game it said:
Unexpected Error Encountered resolving ports: the loading process will be terminated
So what I did was I unistalled Renegade and then tried reinstalling it...
So I'm at 76% in the download and it says: "Copying M03.mix"
Then there is no percent increase and a message pops up saying:"A file system error has been detected.Please ensure that the renegade game disk is in the CD drive"
wtf do I do???
Please someone help me asap
I got a clan match in about 30 mins

Cpax Thanks

And, yes - this usually works cuz i had it myself too a couple of times :S
