xptek

Today, a11serv.tk opened a 16 players dedicated Reborn server. The server should be online 24-7 and I'll continue supporting the mod with new servers after the next patches. The server is currently hosted on an Xeon with 2GB ram. The only other processes running is a COD server. The connection is a 5MB line but we'll be upgrading to a 100MB within a few months.

Hope to see you there,  
xptek.

<http://www.reborn.communityteam.de/renardin/forum/viewtopic.php?t=153>

... :rolleyes:

xptek

Anyway, I find this quite comical. I join Alkaline's Shitborn server to test (yet another) Reborn bug, and I get a PM asking if I'm cwazyape. I respond yes. Then he asks me to "please leave" for "all the shit I talk on renegadeforums".

Alkaline

I asked you to leave because you go around saying reborn sucks so why are you in my server?

xptek

"I join Alkaline's Shitborn server to test (yet another) Reborn bug"

I haven't played it in quite awhile and my first impressions were bad. Thanks for calling me on saying it was shitborn, I wasn't fully aware of all of the mods gameplay and didn't like the look of it.

Anyway, crawl back to your hole. It's not my fault I enjoy the mod.

We got a little anxious. We're still developing our ways of conduct. This WILL NOT be happening again. As the leader of NFD, I take responsibility for this thread. No matter how big of a fucktard Alkaline is, we cannot be dealing with it like this. However, that does not stop us from feeling that Alkaline is a COMPLETE FUCKTARD.

On behalf of the NFD group, I appologize to Crimson, n00bstories, and these forums.

Actually, he's named after a chemical value opposite of acidic. Such things are wasp repellent (I believe, I think wasps stings are acidic) and womans skin, which is more alkaline than a mans. If you listened to your teacher in chemistry, you'd know

And 1 last thing before my IQ drops from hanging around on this topic. You do realise alkaline likes to post controversial topics like this to provoke the sort of replies you're giving? He knows y'all hate him. You're being pretty much lead like dogs here, n00bstories defense.

dude, don't get harsh.

DarkDemin's a moron and i didn't tell him to do anything of the sort. I see you as a good buddy and dark is a moron.

It'd be kind of flaming but with more sense. Instead of, "Dude, FUCK OFF," it'd be more like, "Please shut up. You don't know what you're talking about and you're making a complete ass of yourself." Doesn't seem much more than before, but I guess it'd show a little more authority if it comes from a group member.

Crimson has her reasons for doing things, I thought it was kind of funny.

You're a sense of reason on these forums, I made sure that you were someone we could try to ally with instead of make war with.

Wow, I'm honored...Or at least I was. Too bad you all turned on each other, I was enjoying being defended against by this "NFD", which just proved itself to be hypocritically composed of, well, fucktards. It seems to me like you all need to belong to some sort of group which vents anger upon other people. Did your parents neglect you? Do they still? Besides, if you all want to belong to such a gathering, there is such a thing out there...it's called group therapy. Perhaps you need to seek it out. Until then, may as well stop trying to "defend" this place (which happens to be the Renegade Public Forum, not the n00bstories forum) with poorly typed text, and insults so ineffective that they put your earlier homophobic ones to shame. Grow up.

NFD has made an attack tonight that did not fulfill our hopes of what we thought this organization would do.

---

We realize the mistake we have made and it will not occur again.

We originally intended this to be something that gets rid of people who think negative about everything. And the reason Alkaline was targeted is because of the negativity he has brought. And if you think "fucktard" is considered to be a flaming word then you are wrong this is simply what we call people who are fucking retarded such as Alkaline and Scrumfy.

If you are still wondering our purpose here then wait and see what comes out of us in the future and please don't think this will happen again.

You sure don't seem too intelligent, because you did in fact call me a moron. You debate against morons, you want to eliminate me. Maybe you were calling me more than a moron, because I seem to be quite high on your ineffective, powerless hitlist. Also, I'd like to know how flaming leads to any sort of victory...Especially related to your "cause", because it just happens to be dedicated to doing what it's supposed to prevent in the first place. "Fight fire with fire", right? May as well go debate with yourselves, as you seem to have violated the apparent rules of your own "cause". Another thing I'd like to be enlightened to is how you plan on stopping "people like me", while you're still dishing out insults...

So that's your tactic, asking me to leave? I would kindly refuse, on the grounds that this is in fact, a public forum in which opinions are posted. Just because your opinions differ from mine, doesn't make it your duty to "eliminate" me. If you want to be mature and professional, then understand that opinions differ, and we all have the right to post them here and debate them in an insult-free fashion. Forming a group to "defend" against "fucktards" only shows your real immaturity, even down to the name of it. By the way, you certainly did make a mistake...You created this little club

to argue with people who have different views.

You may be correct there, but this is not the USA, and I am not a terrorist. These forums and the country can hardly be compared, especially since I don't seek to destroy the forums...Perhaps you could all go try and hurt the script kiddies with your words, the people actually trying to take this place down. Perhaps you need a refresher on the legal system in this country. Police officers are also people, and if they, or I, did what you said, they would be arrested. Cops don't just go around shooting people, contrary to your belief...They're allowed to fire in self-defense, as am I or you.

You're one to talk about making sense. Seems someone skipped English class one too many times. And yes, legally, they would have to knock on his door; if they were to knock down the door without a warrant, or notification to the occupants, then Osama could potentially be freed in a court of law. Illegal searches and shootings don't hold up too well.

Scrumfy, don't get me wrong here. I don't see you as a bad person, I just don't like your opinion. Now as my job as a fucktard defender, i consider myself to be much like today's police force. although you may not be a bad person, something that you say or do can result into you getting trouble with "the law."

I am not a bad person, but I made a bad choice by stealing something from my employer and I am now in the court system. So I am being dealt with accordingly to my actions.

I can see myself having normal conversations with you, Scrumfy. I wouldn't object to you and me talking, I would actually enjoy the intelligent conversation that I desperately need.

I am not a bad person, but I made a bad choice by stealing something from my employer and I am now in the court system.

That's nice, you don't like my opinion. Many people most opinions here daily, and not all are unanimously agreed on. Get over it. I was under the assumption that "NFD" was created to stop people who have a bad way of expressing their opinions; not people who just have different ones. I would see why AHA existed...Although that is still immature. Now you've seemingly expanded that hate to people with different opinons. Besides, I don't think you realize how obsessed with and consumed by this place you seem when you tell me that I haven't seen your truth yet. Hey, you know what...that sounds familiar to me. Terrorists use that sort of reasoning to justify attacks against nations with different practices and opnions. Perhaps you're the proverbial terrorist here...

EDIT (because of an edit):

j\_ball430I can see myself having normal conversations with you, Scrumfy. I wouldn't object to you and me talking, I would actually enjoy the intelligent conversation that I desperately need.

Isn't that ironic, now you see my side of things...I thought I was the blind one.

prime example, j\_bal the idiot thinks EA is still sending out FDS serials, look at the thread in his

sig. He intitated the crap with calling me a moron :rolleyes: because I wanted to buy FDS serials.

Ok who is full of shit here? that's right J\_ball is, so he can hate me all he wants, he is retarded piss ant IT sucks at life.

Ya RenMonitor, it uses MDX to accomplish what it does, which basically emulate a windows application. The dialouge controls made it look like a windows app. ALbiet it is in MIRC, juging by the picture: <http://www.n00bstories.com/image.fetch.php?id=1248671177> I thought it was a vb.net application.

I'm going to try to make heads or tails out of this.

Scrumfy = has a negative opinion about Crimson. Opinions are allowed in here, and he doesn't go around in every thread screaming "OGM LEIK CRIMZON IS A BICTH!!!11", therefore he isn't a fucktard.

Alkaline = has a negative opinion about Crimson, AND flames anybody in any thread who disagrees with him or who he dislikes. Excessive flaming qualifies him as a fucktard.

The only reason Scrumfy dislikes Crimson is over an IRC issue with Black-Cell and n00bstories. If I recall correctly, Crimson said that Scrumfy was abusing his IRCop powers in n00bstories IRC when he should have been restricted to Black-Cell IRC. Because of this, she delinked.

If you wish, please post your side of the story, Scrumfy.

Once again, the reason I can't stand you is you pull facts from the air. I did not say mIRC is superior to VB.NET, I said mIRC is easier to script in, and understand. Reading the help file and scrolling through my work for 5 minutes, you can basicallly get an idea on how to make your own script. Your web config app is useless.

NFD, it doesn't matter how you try to justify your "club/gang/defence/hitmen" or whatever you want to call it, the fact is, this is the internet, you don't own these forums and there isn't a damn thing you can do about people you don't like in a place you don't own. Every member of this

club needs to get a life and spend more time at school. Tell me, when you go to bed at night, do you feel you've accomplished something in trying to get rid of someone talking shit on a forum? If it was me, I'd feel ashamed I joined an internet haters group dedicated to hating other big bad people on the intarweb. People like this are a dime a dozen on the internet. It's up to the admins what goes on here, and the day one of you become an admin is the day me, and I'm sure plenty other people, will leave this forum. We don't want children running it, and I sincerely hope that you are indeed children, because I'd feel ashamed if aliens looked down upon this planet and seen 17+ year olds form an internet defense league (this is starting to remind me of The League of extraordinary gentlemen, except that was actually something worth watching) dedicated to "protecting" a forum with pixellated text. It's almost laughable.

Now for the love of humanity and all that is holy, please lock this damn thread.

cowmisfitZepReally? Because, excepte for the fact that you play Renegade, that post was targeting you. :rolleyes:

Well lets exam this shall we? I play renegade, i am on a renegade forum thats flaw one of your "targeting" flaw2: I am not sad at all, i am quite happy, i just dont like morons, flaw3: Base by whole life? i dont think my whole life is based around a moron like him, or any of this. So i guess your "Target" hit you in the face didnt it??

lol why do n00bies come, and as soon as they get here they thing there badass and can be a smartass to others?? The world may never know.

^^ No, I am afraid it didnt. I could go on proving you wrong, but its a waste of time because what I posted was wrong too. I can say that post was not targeting you tho, I was not thinking when I made it. I was going though the forums, and I could see people turning on Alkaline for no reason at all. Some of you may have a reason, but some of you are just plain ignorent. The post I made eariler was out of ignorence drivin by anger due to the fact that a friend of mine was being bashed. I could go on with reasons and st00pid stuff, but I dont feel like it. I am going to play Renegade. My apologies, but all I am going to say is Alkaline is a great guy, you just need to get to know him, and the problem is that you guys dont know him, and I guess its the same thing for you, I dont know you guys, all I see is the hate for alk, and it pisses me off, I bet if I got to know

you, I would understand more, and some of you probably are good guys.... oh well... Im out.

^^ Bad typing because I am in a rush and I want to go play Ren now.
