ok i think i've read it somewhere but don't seem to find it anymore... and i forgot how to do it, when i get into a pure server it sayd to me |jager852| you need Renguard to play on this server, i know this is a probleme wich comes by alot but i have renguard and i never had any problemes and but since i made my name from jager852 --> Jager852 also no problemes but Jager852 --> jager852 and now it gives that probleme...

how can i fix it... o btw i reinstalled renguard and i restarted renguard also so that ain't the probleme.

Its a bug in the server-side client where if you join it sometimes thinks you are not running RG. Even if you restart everything yourself and rejoin the server, the SSC doesnt do a 2nd check to see if you are running RG then.

The only way to fix it is by restarting the SSC (host must do this obviously) but dunno if this will work.
