I know you all are sick of the so called NFD. I have changed my idea once again to something that will make it useful and less annoying to all except for the ones we are aiming our actions at. Here is a description of who we are and what we plan to do.

We are a watch team of elite and experienced moron detectors. The purpose of NFD is to watch for idiots and then make sure the community is aware of their presence. We will be posting a watch list of who has been acting like a moron and who has just been acting downright like a fucktard. This watch list will either be on a separate web page or a thread on these forums. The watch list will contain these listed as followed:

Top 5 Offenders - The most irritating and the most moronic of all of the fucktards. These are people that you should make sure you do not come in contact with.

Repeat Offenders - A list of members who have more than once acted like an idiot on these forums. They may very likely become one in the Top 5.

First Time Offenders - People who have acted like an idiot but are not repeat offenders. These are people that may become a Repeat Offender and eventually in the Top 5.

Of course, once you are on this list, you are capable of being removed. This is done by your actions. If you are a first time offender and are not normally an idiot, you are more than likely only going to be on for a short period of time. If you are a repeat offender you may be taken off by what you do, but it will take a little bit longer to be taken off than if you were a first time offender. The Top 5 offenders may or may not have the capability to be off the watch list completely (havn't decided yet). I am also debating whether or not I should have a separate list of Past offenders that people can access.

This could be a useful thing to have. New members will be able to see who they should not be allied with and who they should ignore. This could also be useful to normal to experienced users as this could be a reality check to them to see them on the list. This could help them see what they did wrong and fix it.

it's just an idea, it's just a watch list for those who hate to be bothered. it's nothing more than just information. i'm not gonna go to idiots and say, "be careful, you're now on our list." It's just going to be useful information to show who's an idiot.

I'm on my fucking list for what I had done earlier. It's just going to be a little handy list, it won't even be on these forums. I've decided to have it on a web site. This is the last thread you'll have to see from NFD, it's just going to be useful info for anyone who may want it. I'm sorry if this annoys you, but I am hoping it's useful to others. I knew that if I posted this that it would cause a little bit of turmoil, but I felt that I needed to just post info on that we're not gone just redefined. There, that's all I am going to say about NFD. If you still have a problem, please, just ignore it.

j_ball430Alkaline, shut the fuck up. I am tired of your shit as is everyone from Black-Cell. You don't really think that only "idiots" hate you, do you? No one likes to put up with you. Shit, I was just about to quit the whole NFD thing, even with the list, but now you just gave me a whole new incentive to start it up again. Thank you.

j_ball430NFD would like to ask for support from the Renegade Forums community. We are dedicated to bringing you forums that you can have threads without morons, and in return, a forum with little or no flaming.

The first quote came after the statement under it.

If you're trying to stop all this fighting, you best not start shit yourself. This is how Ty thought. He cheated so that WW would patch and stop the cheating. Please don't turn your little organisation into a mini-WSE. You've got a sense of humour, I'd say you best use it on your whole idea. Creating a list of people you don't like for whatever reason will only cause more fights on these boards, further proving my point. Do you see the logic fatality in what you're doing?

I agree, I wasn't going to make the list of people I didn't like, I was gonna make it with people who have made themselves to be idiots.

In fact, scratch the list idea, if you value my opinion and you wanna know who I think are idiots, you can PM me or IM me, whatever you want. I'm still keeping NFD just as a "title." Not to act on it, but to show that I don't take shit from fucktards.

Hmm...I've been a little bit of a hypocrite lately. Oh well, the actual attempt to maintain NFD was fun, but it's time that it stops being an organization type deal. I still wish it to be a group, Crimson, if you could please keep it. And anyone who wants to be a "member" then go ahead and ask me to join, but it'll just remain that...a membership.

You have 10 graphics on your site :rolleyes: not to mention the stupid javascript fadein and fadeout effects which besides being gay show your n00biness in the web dev field.

Not to mention you have no idea of color contrast and your menus are hard to read :rolleyes:

The layout of your site is completely inconsistant, just look at your photo album, there is no consistant menu either, people have to re-type your URL to get back to the main page. :rolleyes:
Great map pack section in the downloads, but oohh where the hell is the download button for it? Nice not even a link to download it.

You don't understand what website design is about, the main objective of a site is the focus of the site, you lost your purpose, your concentrated more on the design the object, your site is a typical geocities site.

I have designed sites too, and the objective is always the focus:

<http://130.39.58.56/cb>

<http://130.39.58.56/crawfish>

<http://130.39.58.56/capisic>

Needless to say I rather program my OWN galleries, message boards, or what ever else I need to. I don't depend on others to make my work.

All my sites have a roubust ADMIN backend, which allow you to change any aspect of it. Its a compelte selfmade Content Manager that I made on my own. But what do you know, your still stuck on pretty fiary graphics and javascript affects.

:rolleyes: pretty powerpuff does not mean a site is good or not :rolleyes: My site was meant to be a leech site and a server news site: KEYWORD: SERVFER NEWS, notice we never put anything pertaining to clan matches or anything pertaining to our clan, this is meant to be a site dedicated

to the public that plays on our servers and what maps, tools they need. :rolleyes:

maybe if you put your mouse over MapPack you would find a link. Duh.

Also, there is no javascript on my site, honestly, i don't know how to code in javascript.

As far as color contrast, do you need glasses, you are the only one to complain about reading.

As far as getting back to the main site, have you ever heard of the back button?

My site is focused on our clan. Yes that is our objective, when we played EoE it was for everybody to know.

Yes, can u still point out my graphics, all i see is our title and our buttons on the main site.

You must be blind.

As i stated in my earlier post, this is my first site, i have ever done. How, can anybody expect it to be perfect. I am sure everybody can guarantee that is is better than yours. It only proves you to be a bigger idiot, knowing you have done more sites, and they all still look like crap.

Are you still up to the challenge to a sniping clan match, or are you going to ignore that question also?

As far as n00bness in the web dev field, n00bness is your site, at least i am attempting to make a nice site. Not a white background with some lines, and links all on the same page, like a TRUE geocities site would be.

Let's refer to what a n00b is... The answer is easy. You are. And accoring to the Renegade community:

What is a n00b (not noob)? The definition we're using on this site is a player who may or may not be new to a game, but insists on doing brainless things, especially things that hinder the team. Those who are defined by this site as "n00bs" will also refuse to listen to words of wisdom or, even worse, berate those who try to help.

Yes, that definition, taken off of <http://www.n00bstories.com> perfectly describes you.

You insist on doing brainless things.

You hinder the team. (The whole renegade community.)

You can't listen to anything at all. Nevertheless words of wisdom.

Everytime someone tries to help you, you definitely berate them.

You are a perfectly described n00b.

It is inevitable.

If you would rather program all of your own stuff, than were is it? Nothing but defaults. Me, i am learning as i go. Yes the forums and photo gallery are templates, at least they look decent, and i will learn how to do everything on my own.

Like i said, at least i am trying. Unlike some n00bs (Alkaline).

ROFL here is something funny, how do you like haveing a rank of Deleted under your name. I bet, you feel pretty special about that one!!! w00t we should fear the "Deleted" ones ownage.

Where was the whining, please point it out. Or, did you just get pwnt to badly? Yes, that must be it! Yes, you are right, your white background a few lines website is better than ours. Your hits consisted, of me clicking on your link earlier today. Your websites, prrove nothing that you are better than i am. I have no problem attmitting i am not an "Almighty Webdesigner" You, just think you are the best. Yes obviously some of the best snipers give a shit about our clan, as they are in it.

Like i said before, please read again. We are a sniping clan, dare to play us in a sniping clan match? We aren't AOW. Although a 1 on 1 with you, would be easy enough.

How does it feel to go through this day in and day out. Just knowing as soon as you come to the renegade forums, everybody talks shit about you. Does that make you proud?

All you do is your gay this and he is gay that, and how you did someones mom. Thus, it proves your immaturity level. NOTE: Most of us are out of elementary school. GROW THE FUCK UP.

I think i went into your server's once before, how long ago, and yes, just one time you are right. Feel free to ban me from your servers, hey wait, we can ban each other n00b.

Once again, i am done with you. You are not worth my family time with my wifey. To be bothered with, and to ramble on and on, on your level. I am a smarter person. I will let you win this.

TA TA BITCH n00b.

Those stats aren't exactly impressive, you know...

n00bstories gets about 60,000 hits per day

These forums used to get about 50-60,000 hits per day, but this month we are running about 90,000 hits daily due to the increased activity with RenGuard.

RenGuard.com has spiked since the release:

Apr 8 (release day) 176,833 hits
Apr 9 142,472
Apr 10 101,189
Apr 11 92,605
Apr 12 91,768
Apr 13 93,448

But, I personally find the UN site appropriate for its content and suits its purpose. (too bad you program in ASP)

Alkaline,

Please, get some experience before talking about web design. I can tell you now, those designs SUCK. Try taking more than a day to design a site. I worked as a professional web developer for two years and in that time designed over 350 sites for customers. I still run liquid2d.com and plan on continuing.

Quote:You have 10 graphics on your site not to mention the stupid javascript fadein and fadeout effects which besides being gay show your n00biness in the web dev field.

Graphics don't matter. It's how the design fits together as a whole. I've made some great sites with just CSS and NO images.

Quote:Needless to say I rather program my OWN galleries, message boards, or what ever else I need to. I don't depend on others to make my work.

Yet you use phpBB

Quote:All my sites have a roubrust ADMIN backend, which allow you to change any aspect of it. Its a compelte selfmade Content Manager that I made on my own. But what do you know, your still stuck on pretty fiary graphics and javascript affects.

Screenshots? Why would a simple HTML page need a backend?

Scrumfy, did ya hear? NFD is just for membership basis only, just a thing to be known that I hate bitches like you and Alkaline. Nothing more than the simple idea of being a part of a "group."

Alkaline, I didn't feel the need to keep circulating flames in these forums, and since you're too big of an asswipe to accept my invitation to go one on one; the flaming has to continue.

I just don't get this, no matter how many times you beat Alkaline down with common sense he has some absurd way to make a comeback. He is one of those people that you couldn't even be nice to even to save your own life.

Edit: Drkhaze, also, I said that the ignoring of morons would result in less flaming, I didn't say I wasn't going to flame.
