You're using an unauthorized no cdkey patch. Get for example djlaptop's no cd key patch, we
authorized that one. We have about 7 or 8 nocdkey exe's in our database..

Or send that one to me and I will take a look.

http://www.beaconpedestal.com/nocd/djlaptop_renegade_1037_nocd.exe

Be sure to upgrade Renegade to version 1.037 (the latest), then apply this patch BEFORE you

install RenGuard.

There's an "update" available in your Start menu that will check for any updates.
