I downloaded Rg 1.00 or something.. anything, today when i tryed to update it.. It doesnt.. I just get this message with Rg 1.00 and wiht 1.01

Can someone help with this? I have uninstalled 1.00 and 1.01 both and then tryed to install them again, but doesnt work! And i really want to play Renegade again

What OS are you running?

Are you running a firewall?

Nope.. I dont have FW.

And now i just tryed to get Rg working with 1.00 and then it SHOULD automaticly download 1.01 , but it doesnt or how long do i need to wait, huh? and with 1.01 i get that same msg again

and if wonder.. Its finnish

AppName: game.exe AppVer: 0.0.0.0 ModName: ntdll.dll
ModVer: 5.1.2600.1217 Offset: 0003381b

Thats the problem..

Nothing happens ^^

erm... Now my 1.00 Rg works, but not 1.01

Well.. No one even have any ideas??! I really like to play Ren with Rg!

---

my gosh with you guys.... and girls.... I want to play god damn Renegade, 'cos my fav server needs Rg and now i uninstalled and reinstalled Renegade again and i installed Rg 1.01 but i still get that motherfucking error!!!

i want help!! if not.. i'll do something in here!

[EDIT] -AFTER 1 HOUR OF TRYING-

I think thats a good thing! I installed Rg 1.00 and now it auto updated and when it said to restart Rg, i did so, and now i got this fucking error!!!

....
....

I am having exactly the same problems, I re-install Renegade and renguard and get either the crc erroe or Game.exe crashes. Sometimes Renegade loads and detects modem speed but will not connect to Westwood Online.
I wonder if it is the Athalon Processor as me and several others I have heard about with this problem are using Athalon XP processors.
